Subject index to *The Milk Industry*, 1977

This index covers the editorial contents of volume 79 published between January and December 1977, inclusive. For ease of reference, subjects are generally listed under the key word in the title (*ie*, Bottling: the future for aseptic. UHT milk: British samples in Moscow) but where deemed necessary, cross references are given. The entries under "Milk" and "Dairy" have been kept to a minimum.
